Shipping Period---Winter and Spring

THE HARVEST starts at Christmas time (Winter), and orders are filled in their rotation.

LARGE ASSORTMENTS can seldom be completed in the first shipment.

Freight Prepaid to Salt Lake, Kansas City, St. Louis and Rochester

Car lots are shipped annually to the above breaking points. At any point we can hold your order four weeks in cold storage if desired.

Transportation Allowance

Invoices at these prices f.o.b. Hemet will show credit toward freight or express, one cent each on No. 1 grade and one-half cent each on smaller grades.

TERMS

TERMS—60 days net, f.o.b. Hemet, California, to established Nurserymen, Seedsmen and Dealers, known to us, or to those who have necessary rating. THIRTY DAYS less 1%. TEN DAYS less 2%. For advance cash or cash with order before shipment, less 3%.

TO THE TRADE ONLY—Prices shown are for first-class stock of the grade named. The use of printed stationery as protection is desirable. If it is not used, the purchaser should state clearly his position. We print only wholesale trade lists, and do not desire or solicit retail orders.

SUBSTITUTION—We do not substitute unless instructed to do so, and then label true name. Customers will save time by naming a second choice, to be supplied only when first choice is sold out.

PRO-RATA—As it is almost impossible to count roses in the field when partly grown, there is a feature of uncertainty about all orders booked before digging. Consequently we reserve the right to fill such pro rata.

GENUINENESS—We exercise great care to keep all varieties true to name and will replace, on proper proof, all stock that may prove otherwise; but it is mutually agreed that we shall not be liable for any amount greater than the original price of the stock. All quotations made subject to stock being unsold when order is received, or loss by any and all unavoidable causes. Freight shipments travel at risk of purchaser.

PACKING—Bales and boxes will be charged at near actual cost price. We make no charge for packing or delivery to railroad station.

*—We can book this variety only west of the Mississippi.

Our Cecile Brunner, the "Sweetheart Rose" (*Polyantha*) and American Beauty (*Hybrid Perpetual*) can well be classed with the everblooming varieties. They are "Desert Climate Grown" and do not produce any amount of blind-wood, due somewhat to bud-selection and many years production under our favorable constant sunshine.

These desirable influences are reflected to some degree in all Rose Bushes grown in our nursery.
